

# HERCULES

HIGHER EUROPEAN RESEARCH COURSE FOR USERS OF LARGE EXPERIMENTAL SYSTEMS

## HERCULES XX SYMPOSIUM - 20TH ANNIVERSARY

March 25<sup>th</sup> and 26<sup>th</sup> 2010

This HERCULES XX symposium aims to bring together the HERCULES participants and to promote scientific exchange between them at the occasion of the 20<sup>th</sup> session of the course. The scientific programme will emphasize the opportunities associated with the new/upgraded sources, and include breakthroughs and future prospects of the neutron and SR Science. A poster session will foster the scientific exchange among all the HERCULES participants.

### WITH ORAL CONTRIBUTIONS FROM

**A. YONATH**, Nobel Prize 2009,  
"Ribosomes"

**C. CARLILE**,  
"New sources ESS Lund"

**M. ALTARELLI**,  
"New sources X FEL"

**W. STIRLING**,  
"Upgraded Sources: why/what for"
